No. 811-A APHRODITE

32" High; 9" Base

Goddess of Love — the symbol of eternal beauty. This is a copy of an original French marble and is without doubt the most magnificent nude in the world. The anatomy is absolute perfection. Water comes from left collar bone and nozzle No. 24 should be used.

Wt.: Net 42 lbs.; Shpg. 70 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1367 BACCHUS

56" High; $23\frac{1}{2}"$ Base

God of Wine, fun and good living. Vine leaves in his hair, he tips his dish of wine to mouth while his little faun friend sits between his legs, handing him grapes. A must for your outdoor barbeque or bar room.

Water piped to dish.

Wt.: Net 245 lbs; Shpg. 500 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1117 REBECCA AT THE WELL

48" High; 11" Base

This lovely girl in her Grecian robes spills water from her jar into the pool below. For a 48" bowl or pool.

Wt.: Net 122 lbs.; Shpg. 215 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1130 WELCOME TO MORNING

45" Overall; 18" Width at hands

An inspiring work of art as she stands with her arms upraised, greeting the rising sun, symbolizing the birth of a new day, free from the cares of yesterday. She is not piped, and should be used either as a garden piece, or in the center of a pool with frogs spraying water on her; or in 48" bowl with a spray ring of water playing on her. Beautiful for interiors when spot lighted from above.

Wt.; Net 62 lbs.; Shpg. 200 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1311 HEBE

42" High; 12 $\frac{3}{4}$ " x 10 $\frac{1}{2}$ " Base

The Goddess of Water. Here is a serene creature in flowing Grecian robes, ready to watch over your garden pool. Water comes from both jar and cup. Beautifully sculpted, her lines seem to flow. Can be used in 48" bowl, pool or on large shell.

Wt.: Net 134 lbs.; Shpg. 225 lbs.

(Scale: 1 $\frac{1}{2}$ " = 1')

No. 808-A FLORA

34" High; 9 $\frac{1}{2}$ " Base

The Goddess of Flowers. This graceful figure should be in every garden. Wearing a Grecian dress she holds in her hand a basket of flowers from which the water shoots. Use in 36" to 48" bowl, pool or shell.

Wt.: Net 63 lbs.; Shpg. 100 lbs.

(Scale: 1 $\frac{1}{2}$ " = 1')

No. 103-A HEBE

Goddess of Water, by Thorwaldsen

40" High; 10" Base

A magnificent work of art, her beautiful face, hairdress and flowing Grecian robes and lovely posture are things to marvel at as she graces your garden. Water comes from both jug and cup. You should use nozzle No. 24 in the cup. She can be used in a 48" bowl, pool, or on large shell.

Wt.: Net 105 lbs.; Shpg. 185 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1806 ADRIENNE

33" High; $10\frac{1}{2}"$ Base

A masterpiece of French origin. One of the most pleasing and delicate works of art we have seen. Her captivating hairdress; her dainty hands and feet, are all refreshing. She wears a fluid Grecian gown and pours water from an ornate jar.

Wt.: Net 85 lbs.; Shpg. 140 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1728 APRIL SHOWERS

32" High; 9" Base

This little cherub was well prepared when caught in the rain, with her umbrella over her head. Water shoots up through hollow handle over umbrella; used with 36" or 48" bowl.

Wt.: Net 48 lbs.; Shpg. 75 lbs.

Umbrella, Shpg. 36 lbs. (Scale: 1½" - 1')

CHILDREN WITH UMBRELLA

No. 1065-A: 4½' High; 15" Base

Wt.: Net 254 lbs.; Shpg. 500 lbs.

Umbrella, Shpg. 40 lbs. (Scale: 1½" - 1')

A little boy and girl, dressed in clothing of 1900, huddled together in the rain beneath umbrella. Water shoots up through the hollow handle of umbrella, falling over the edge. Warmly appealing. Suggest 48" or 60" bowl, or pool for large size; 36" or 48" pool for small pair. On the large pair the beauty is lost in photography.

No. 1065-B: 3' High; 11" Base

Wt.: Net 52 lbs.; Shpg. 125 lbs.

Umbrella, Shpg. 25 lbs. (Scale: 1½" = 1')

No. 1377

ST. FRANCIS

No. 1377: 17" High; 4" Base
Wt.: Net 8½ lbs.; Shpg. 20 lbs.
(Scale: 2" = 1')

Patron Saint of birds and animals, he is a must for every garden. Very well done, nice face with benign expression. In the large one you see the texture of his habit.

These statues are not piped.

No. 1378: 36" High; 13" Base
Wt.: Net 105 lbs; Shpg. 185 lbs.
(Scale: 1½" = 1')

No. 1378

No. 1805 KWAN YIN

50" High; 10" Base

This magnificent Goddess with her flowing robes, serene face stands ready to bring good wishes, peace and the best of luck to your home and garden as she has done in China for thousands of years. The water comes up from pipe in her right hand.

Wt.: Net 161 lbs; Shpg. 240 lbs.
(Scale: 1½" = 1')

**No. 1342 VENUS AT THE BATH -
KNEELING**

26" High; 13" Base

Venus is beautifully sculptured, as she kneels beside the bath in all her nudity. The water comes from pipe in her right shoulder. This is a copy of the original in the Vatican Museum.

Wt.: Net 102 lbs.; Shpg. 185 lbs.
(Scale: $1\frac{1}{2}" = 1'$)

No. 1810 VENUS AT THE BATH - STANDING

26½" High; 8" Base

Beautiful, classic Venus disrobes beside the pool. Her coiffure is a masterpiece, her face and body divine. In her left hand she holds a shell from which water pours. For shell or bowl.

Wt.: Net 44 lbs.; Shpg. 75 lbs.
(Scale: $1\frac{1}{2}" = 1'$)

No. 1401 BOY WITH SHELL

34" High; 11" Base

A boy with a beautiful cherubic face kneels on a rock, holding a large shell from which water falls into pool. An elegant statue for a 3 to 4 foot bowl or center of a pool.

Wt.: Net 72 lbs.; Shpg. 125 lbs.
(Scale: $1\frac{1}{2}" = 1'$)

No. 1374 LOVE AT THE SPRING

26" High; 10" Base

Two lovers meet at the spring where she has come to fill her water jar. Love is blind, as she listens to his whispering of sweet nothings, the jar is forgotten and the spring water flows instead into the pool. Good detail shows the straw in his hat and the material of her dress. Wt.: Net 82 lbs.; Shpg. 135 lbs. (Scale: $1\frac{1}{2}" = 1'$)

No. 1803 THREE LITTLE REVELERS

22" High; 18" Base width

These little rascals having been to the wine festival, are now on the way home, vine leaves in their hair. The center one has had too much of the grape, his skin robe has fallen off, he is lost to the world. His cup hangs listlessly from his hand spilling water into bowl. The pal on his right worried, dropped his shepherd's flute to support him while the carefree pal on his left laughs, shakes his tambourine. This is one of the finest pieces we have seen. The sculpture is magnificent, the facial expressions are terrific! The original is French, supposedly came from the Versailles Gardens.

Wt.: Net 95 lbs.; Shpg. 175 lbs.

(Scale: $2" = 1'$)

No. 1120 BOY POURING WATER FROM KEG

37" High; 12" Base

Here is a piece to gladden the heart of anyone who likes real boys. This lad, dressed in Dutch boy clothes, wooden shoes, with a slight smile on his face, empties his wooden keg over the rocks. For a 3 to 4 foot bowl or large pool. A delightful creation.

Wt.: Net 126 lbs.; Shpg. 210 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1402 GIRL WITH BUCKET

29" High; 11" Base

A rugged girl lets water spill from her bucket into the bowl. This piece is done in rough style for those who prefer ruggedness to classical smoothness. Can be used in a 36" bowl, pool or on shell.

Wt.: Net 51 lbs.; Shpg. 150 lbs.

(Scale: $1\frac{1}{2}" = 1'$)

No. 1709 THE FISHER BOY

21" High; 12" Base

Here is the real Huck Finn type of boy whom we'd all secretly like to be; just waiting to get to your pool to see what he can catch. He is not piped.

Wt.: Net 36 lbs.; Shpg. 45 lbs.

(Scale: 2" = 1')

No. 1315 BOY WITH FISH

24" High; 9" Base

A cute little fellow holds fish almost as big as he. Water shoots up from fish.

Wt.: Net 42 lbs.; Shpg. 57 lbs.

(Scale: 2" = 1')

No. 1400 GIRL WITH FISH

36" High; 15" x 10" Base

A nude little girl with an exquisite face and body, holds a fish from whose mouth the water flows. For the center of large pool or the edge of pool — a real show piece.

Wt.: Net 79 lbs.; Shpg. 225 lbs.

(Scale: 1½" = 1')

DO IT YOURSELF POND

STEEL TANK

These steel tanks allow you to have a lovely sunken pool or Italian fountain at minimum cost and without the labor and plumbing of a concrete pool. Made of heavy gauge corrugated and galvanized steel, they will serve for many years, after which time they can easily be replaced. This cannot be done with a concrete pool should it crack or leak.

As illustrated, you can bury them and face the lip with flagstones, or set them right on the ground and build a wall around of stone or brick, with a cap around the lip. For a fountain, just put one of our pumps in the pool and connect it to whichever figure you desire. Several figures can be hooked up to one pump, should you desire such an arrangement.

The tanks come unfinished — if we were to ship crated, which would raise the cost and ship both round and oval.

Round End Tank Sizes:

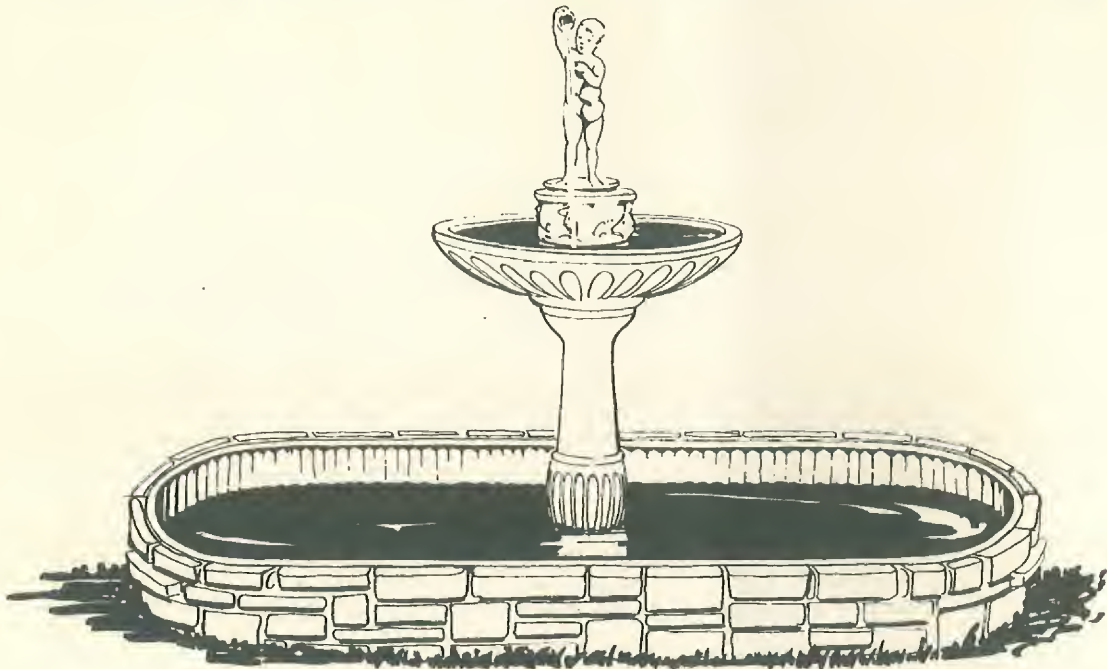

No. 1900 Steel Tank; Width, 3'; Height, 1'; L

No. 1901 Steel Tank; Width, 4'; Height, 1'; L

HEAVY STEEL BOWL

This heavy pressed steel bowl is the answer to those of you who desire a large bowl for a pool or fountain at minimum price.

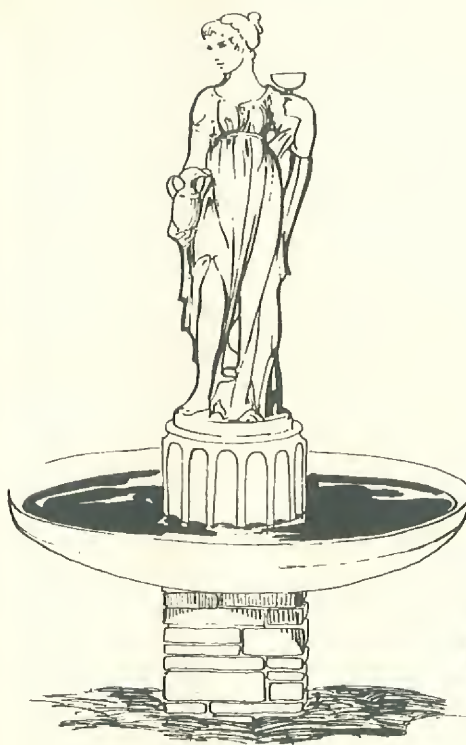

You can sink this in the ground; set it on top of the ground and build your own stone base for it; plant around it. You can paint it yourself and it will last indefinitely. These come unfinished. If we were to paint it, it would be necessary to ship crated which would increase the shipping costs. Several sizes are available.

By using our pump, case pedestal and one of our figures, you can have a beautiful fountain for little money and in minimum time.

Bowl Sizes:

No. 1904 STEEL BOWL; $\frac{1}{4}$ " x 48" O D.; depth in center: 10" Wt. 181 lbs.

No. 1905 STEEL BOWL; $\frac{3}{8}$ " x 60" O D.; depth in center: 11"; Wt. 427 lbs.

No. 1819 PSYCHE

CUPID AND PSYCHE

24" High, 8" Base

Wt.: Net 40 lbs.; Shpg. 60 lbs. each statue.

We just had to get these little beauties in the catalog as they are really fabulous.

We have copied expensive early 18th century bronzes which we discovered in an antique shop just last month; their expressions, sculpting, fine detail are beyond belief. Cupid has his little angel wings and pours water down from a shell in his hands. Psyche has delicate butterfly wings and sprays water up from a flower in her hand.

The figures as shown are changed slightly to convert into fountains.

OUR TWO FABULOUS SHELLS

We are the originators of this marvelous time and money saving idea of making a shell with a built in receptacle for a pump. By using these shells with the pump, they can be located anywhere in the garden or home without the terrific expense of bringing in the water and sewer connections formerly needed whenever a fountain was installed. You just plug the pump into a 110V light socket.

Another wonderful thing about these is the fact they can be used in the garden in the summer and then brought into the house in the winter for further enjoyment.

No. 1800 LARGE SHELL

12" High; 28½" diameter (both ways)
water 4" deep at deepest point.

This Baroque shell has sweeping lines; a thing of striking beauty, may be used with most small or large figures. See page 23. Pump fits inside at center back.
Wt.: Net 180 lbs.; Shpg. 350 lbs.

No. 1801 SMALL SHELL

8" High; 26" front to back; 28½" wide;
water 4" deep at deepest point.

Beautiful in its simple design. See pages 24 and 26. Pump fits inside at center back.

Wt.: Net 104 lbs.; Shpg. 175 lbs.

PEDESTAL FOUNTAINS

All bowls are made especially deep for use as fountains — with a pipe running through the bowl and pedestal for concealing the wire from the pump. (Shells do not have this pipe.)

Bowls may be used as planters and as such do not have the pipe.

If you desire a standard bird bath, order No. 1121 (which looks the same as No. 1811 and No. 1815) or No. 1348 (which is similar to No. 1813 and No. 1814).

ASSEMBLY OF FOUNTAINS

ASSEMBLY OF FOUNTAIN

1. Set bowl on pedestal and line up pipe in bowl with pipe in pedestal.
2. Set pump in bowl and run waterproof wire from pump through pipes in bowl and pedestal and bring wire out of bottom pipe.
3. Put case pedestal over pump and bring hose from pump up through hole in top of case pedestal. **Tighten hose clamp all the way.**
4. Set statue on case pedestal and slip hose over tubing in bottom of statue.
5. Fill bowl with water and plug pump into 110V socket.
6. Now adjust water flow by loosening clamp on hose.

ASSEMBLY OF SHELL

1. Put shell into permanent position.
2. Put pump into cavity in shell and bring wire out the groove at back of shell. **Tighten hose clamp all the way.**
3. Fill shell with water.
4. Set statue on top of shell over pump.
5. Slip hose from pump over tubing in bottom of statue.
6. Plug pump into 110V socket.
7. Adjust water flow by loosening clamp on hose.

WATER

Once you fill the bowl or shell with water, the pump recirculates the water, so you only add water to make up for evaporation. No plumbing is necessary.

No. 25-A RECIRCULATING PUMP

Height, 4½"; Base dia., 4"

O. D. Tube outlet, ⅜"

Operates completely or partly submerged. Motor is sealed in an oil filled, watertight housing. Housing is made of brass with copper water spout. Motor shaft is of stainless steel. All parts are corrosion resistant, provide years of service. **NO OILING REQUIRED.** Pump base merely twists on and off for cleaning of impeller housing and outlet spout. Comes with suitable length of hose and clamp, and 6 foot water-proofed cord. Operates on 110-120V, 60 cycle, single phase, only.

Water delivery G. P. H.

1':190; 2':157; 3':148; 4':126; 6':84; 8':30.

No. 24 NOZZLE

This is a small brass nozzle which works on the same principle as a nozzle on a garden hose. It comes with suitable attachment for figure on which it is to be used. It **should** be used on all figures where the water comes straight up to avoid excessive splashing - especially on interior fountains.

These bowls are especially made for fountains — they are from 3½" to 5" deep at center where pump sits to supply sufficient water so that evaporation will not be too frequent.

The No. 25-A pump is concealed under the No. 50 case pedestal in the center of the bowls shown here, with No. 1714 statue. This makes inexpensive installation and operation for a very attractive fountain.

Complete descriptions for these numbers may be located in the index.

If a standard bird bath is desired instead of these deep bowls, order No. 1121 (similar to Classic bowl and pedestal), or No. 1348 (similar to No. 1813 and 1814).
